

'@-space' media chair

design Berhin & Beckman

Data sheet and prices

About '@-space'

When you enter @-space, you enter the media. Be creative, play games, check your e-mail, relax or watch a movie! All the sound and computing power you need is aboard. You interact with a large screen and an ergonomic keyboard.

@-space is delivered with an integrated 2.1 speaker system and integrated cables for computer, screen and keyboard. You plug your own laptop computer or game station, 19" flat screen and wireless keyboard and mouse (knee-top board with a grain-filled cushion bottom that forms to the shape of your knees as accessory).

For more images and further information, see www.beeb.se
